

Online Poster

Customization

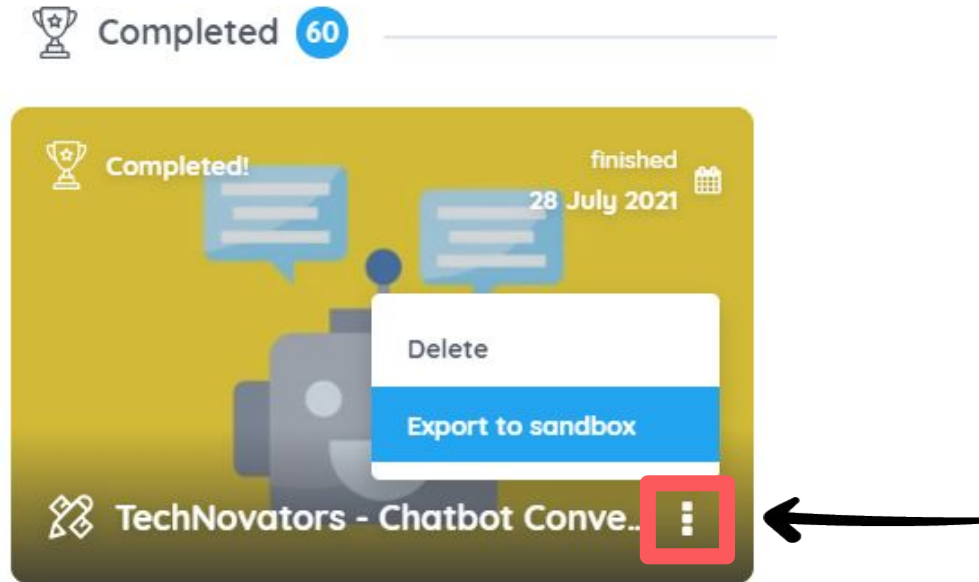

1. On BSD Online, click **Your work**.

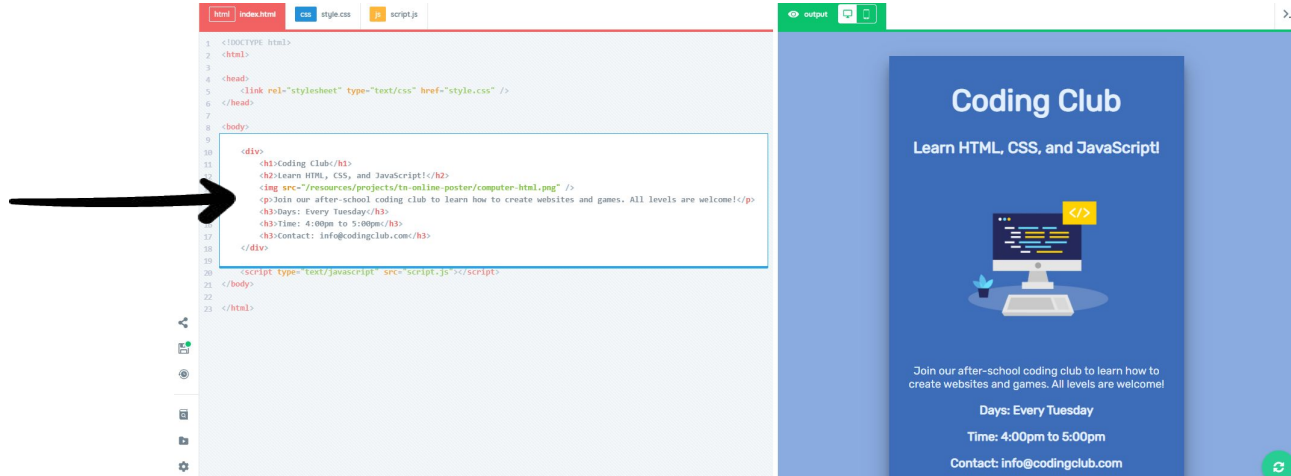

2. Open your **completed** projects.

- Click the **three dots**, and select “**Export to sandbox**”.

4. This makes a copy of the project, but with **ALL the code unlocked!**

5. Start **customizing** the project to make it unique!

```
10 <div>
11   <h1>Language Club</h1>
12   <h2>Learn words and phrases in another language from other
students!</h2>
13   <img src= "/resources/projects/tn-online-poster/computer-
html.png" />
14   <p>Join our after-school coding club to learn how to create
websites and games. All levels are welcome!</p>
15   <h3>Days: Every Tuesday</h3>
16   <h3>Time: 4:00pm to 5:00pm</h3>
17   <h3>Contact: info@codingclub.com</h3>
18 </div>
```

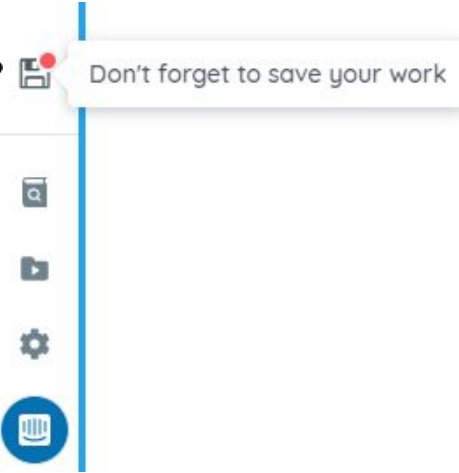

6. After making any changes, click the **“Run code” button**.

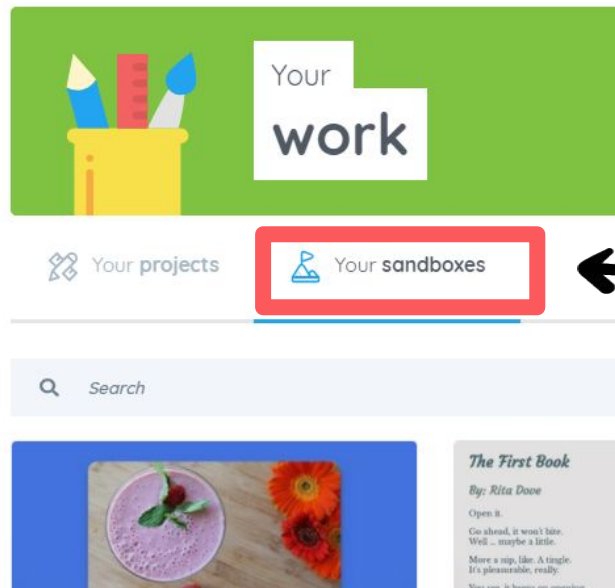

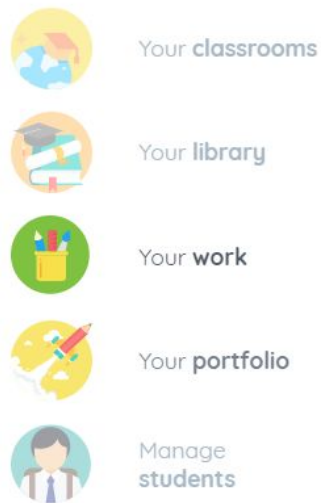

Click this to see your changes!

In sandbox, always remember to save.

Save your work!

All your customized sandboxes can be found under **“Your sandboxes”**.

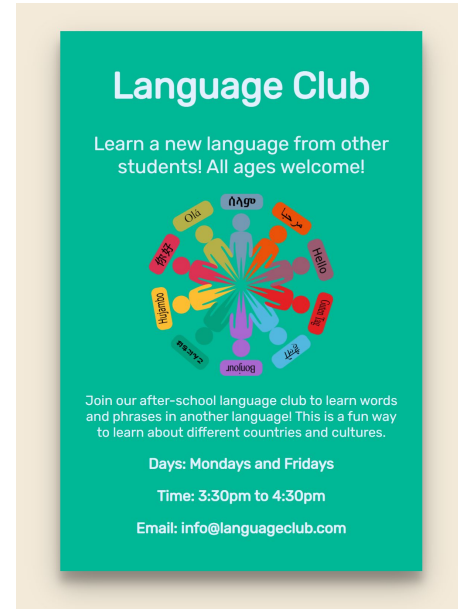

Customization

What can we customize?

- **Topic** of the poster
- **Width** and **height** of the poster
- **Background colors** of the webpage and poster
- Poster **image**
- Text **color** and **size**

Change the **topic** of the poster

Change the image

```
<img src = "resources/computer.png">
```

replace the URL to
change the image

Change the text size

```
27  h1 {  
28      font-size: 50px;  
29  }  
30  
31  h2 {  
32      font-size: 26px;  
33  }  
34  
35  p {  
36      font-size: 18px;  
37  }
```

Change the background colors

```
7  body {  
8      background-color: #8AABE0;  
9      font-family: "Rubik";  
10 }  
11  
12 div {  
13     width: 430px;  
14     height: 700px;  
15     background-color: #3d6cb9;  
16     color: #E5F0FF;
```

Change the text color

```
12  div {  
13      width: 430px;  
14      height: 700px;  
15      background-color: #3d6cb9;  
16      text-align: #E5F0FF;  
17      color: #E5F0FF;  
18      text-align: center;  
19      margin: auto;  
20  }
```

Change the text color

→ **h1** {

28 font-size: 50px;

29 color: #FEDB29;

30 }

31

← ONLY change the color
of the **<h1>** text!

→ **h2** {

33 font-size: 50px;

34 color: #00c4ba;

35 }

← ONLY change the color
of the **<h2>** text!

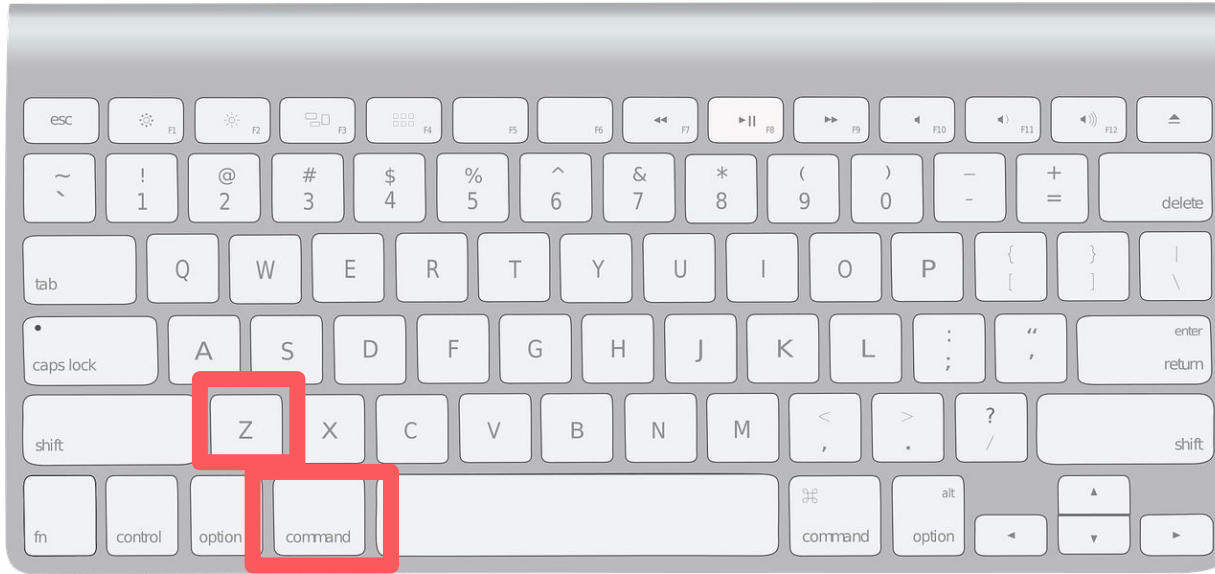

Uh oh! I made a mistake! How
do I undo my last action?

Windows: Press **CTRL** and **Z** to undo your last action.

Mac: Press **COMMAND** and **Z** to undo your last action.

I forgot what this HTML element
or CSS property is used for!
