

What can be customized?

- Change the webpage background color
- Change the game area background color
- Change the text color and font size
- Change the game images
- Change the position of the images

Change the color of the heading that displays the points scored:

```
91  h1 {  
92  color: #ffffff;  
93  position: absolute;
```

Change the background color of the webpage:

```
1  body {  
2    margin: 0;  
3    background-color: #27053c;  
4  }
```

Change the background of the game area

```
6 #container {  
7     background: rgb(110, 6, 174);  
8     background: linear-gradient(0deg, rgb(114,  
15, 176) 0%, rgba(149, 14, 215, 1) 100%);  
9     position: relative;  
10    width: 1200px;  
11    height: 800px;
```

Change this...

```
45 background: linear-gradient(0deg, rgb(114,  
15, 176) 0%, rgba(149, 14, 215, 1) 100%);
```

...to a hex code!

```
45 background-color: #f5ab41;
```

Change the game images

```
10 <div id = "container">
11     <div id = "glow"></div>
12     <img src = "/resources/moon_bg.png" id = "moon">
13
14     <img src = "/resources/dark_town.png" id = "town">
15
16     <img src = "/resources/flying_broom.png" id = "broom">
17
18     <img src = "/resources/pumpkin_item.png" id = "pumpkin">
19     <h1>Score: 0</h1>
20 </div>
```
